BIRTHKEEPER INTENSIVE

BKI is an experiential workshop for BirthKeepers - doulas, midwives, doctors, folk who have made it their work to be a birth activist and a holder of the sacred wisdom of birth.

BKI has been designed to help you understand your hidden agenda, the unique gifts you bring to your work and to teach you shamanic tools and processes to add to your own medicine bundle in serving and facilitating the transformation possible around birth.

We will do shamanic drum journeys, rituals, ceremonies and craft. We will sit in circle, BirthKeepers united on a mission - "to heal the Earth, one birth at a time."

\$400

Teas catered, BYO lunch

Payment by paypal available (extra fees apply)

This is a workshop for anyone working around birth who wants to take a deeper look at themselves and those they are working with and take it to a whole new level. RENEE ADAIR, FOUNDER AND PRINCIPAL OF THE AUSTRALIAN DOULA COLLEGE

The BKI filled the gaps that were missing in my midwifery, doula and counselling training. - JAN GATTI

I learned what it means to be a Birth Keeper, respecting a women's life experiences, whatever they maybe, to help her be conscious of her journey so that her experience can be one of healing. JENNY SCHELLHORN

The BirthKeeper Intensive (BKI) workshop is a journey into the role and responsibilities of everyone who holds the space for a birth to unfold.

Birth has always and will always be a spiritual experience, one that takes all involved deep within themselves revealing their inner workings - to meet their beliefs, attitudes and fears, conscious or not, that configure their experience. Every woman will have her 'potential' birth experience - that holds the teachings for this point in her life journey.

The role of the BirthKeeper can be to facilitate the transformation that 'wants to happen' at this time for women.
